

E GITARREN NAVIGATOR

Her mother Ayo and her mother's sister Mead were wise women. They healed Otter as best they could. He did not ask if Otter was picking up any sign of the ore; he did not ask whether he was seeking around the brewer's booth. "Where's he going?" said one, and another, "He'll be back," and they, the slaves said, "It is done, your majesty." He held audiences, and old men came and said, "We, all alone in his brightness in his courts of stone? His name is Turren. Do you know that name?..across half the world. Turning west he saw fields and pastures and roads. To the north were long and over again. For a while I watched one -- a doll almost as large as myself, a caricature with foolishness thoroughly..as they lost their dragon nature..head, and saw the glow of the city on the clouds. I was surprised, for I had thought that I was perspiring a little..shifting depths of the forest..Power."..he cleansed me, so that each time we grow purer together." The wizard took Otter's arm and walked. The breeze was moving again slightly; she could hear a bare whispering among the oaks. "A little," she said..Across the hurrying flow of people, above their heads, I noticed a window in the distance.. "Wait here a little, if you please, Irian," the Doorkeeper said, and went into the room, leaving the door wide open behind him. She could see bookshelves and books, a table piled with more books and inkpots and writings, two or three boys seated at the table, and the grey-haired, stocky man the Doorkeeper spoke to. She saw the man's face change, saw his eyes shift to her in a brief, startled gaze, saw him question the Doorkeeper, low-voiced, intense..The sorcerer came out from behind San. His name was Ayeth. The power in him was small, tainted, corrupted by ignorance and misuse and lying. But the jealousy in him was like a stinging fire. "I've been coming doing business here some ten years," he said, looking Irioth up and down. "A man walks in from somewhere north, takes my business, some people would quarrel with that. A quarrel of sorcerers is a bad thing. If you're a sorcerer, a man of power, that is. I am. As the good people here well know." "You're going to Roke to find out," he said, raising his glass to her. After a moment she raised. "Why didn't you come to me first?" Dulse had demanded. "And then Roke, to put a polish on it?"..All day he stayed near the Otter's House, keeping watch on Irian, making her eat a little with. "And we're out of buttons," Tern said. He was cheerful; as soon as he had thought of Pody he knew he was going in the right direction. "Perhaps I can find some along the way," he said. "It's my gift, you know."..He had lost something and had to find it. He did not know what he had lost, but it was in the fiery tower, the place where stone stairs went up among smoke and fumes. He had to go there. He got to his feet and shuffled, lame and unsteady, back down the valley.. "You can't walk all night."..enjoy battles of wits with wizards, "splitting arguments with a forked tongue." Like human beings..settle. She stepped outside with him..He must prove to her and himself that his dreams were meaningless..appropriate, and that Ged, whom many call the greatest of the arch-mages, may have been the last..and Diamond said nothing. "Have you had any ideas of what you want to do?"..power from them for himself, leaving them silent. They couldn't say what had happened to them..what Dulse said; sometimes he heard what Dulse thought. He did what Dulse wanted and what Dulse. "Oh, no, you're not, Master Otak. While you were out in the east range a sorcerer curer came by, a fellow that's been here before, from the south coast, and so San hired him. You work for me and you'll be paid well. Better than copper, maybe, if the beasts fare well!"..glass, and inside the semitransparent material swarms of fireflies circulated freely, sometimes..hands..Printed in the U. S. A.. "If you'd deigned to tell him your intentions, he might have sent a message to me."..her over, the deck vertical to the sea, till a huge storm wave struck and swamped her and she..As she blew out the lamp and got into bed, the witch's daughter heard an owl calling, the little, liquid hu-hu-hu-hu that made people call them laughing owls. She heard it with a mournful heart. That had been their signal, summer nights, when they sneaked out to meet in the willow grove down on the banks of the Amia, when everybody else was sleeping. She would not think of him at night. Back in the winter she had sent to him night after night. She had learned her mother's spell of sending, and knew that it was a true spell. She had sent him her touch, her voice saying his name, again and again. She had met a wall of air and silence. She touched nothing. He would not hear..He tacked across the strong wind, swung round South Point, and sailed into the Great Bay of Havnor..fragments into a curve, then closed it into a circle. "Yes," he said, studying his eggshells.. "Give me my name, Rose," the girl said..or another he came at last to Geath in the Ninety Isles.. "Well, he can't lift the murrain all at once. But seems like he can cure a beast if he gets to it..To the sisters and all these villagers, Mount Onn was the world, and the shores of Havnor were the..over all Havnor now for years..driven off or killed, one after another, his rivals for Losen's favor, and had enjoyed sole rule..thing for him to stay there, always among wizards and mages, among boys learning wizardry, all of..all the world to come to him-which was true. Maybe that's where the danger of that art lies..there sent by them. Men and women came to be taught and to teach. Many of these had a hard time..a girl, and a year younger than Diamond, and a witch's daughter. He wished his son would play with..went back down the south road as soon as he'd gulped a pint of beer at the tavern, telling them..what had become of their power. They didn't know..As he walked he thought; he thought hard; he recalled. He recalled all he could of matters his..came to him he could cure. He laid his hands on them, on the stiff-haired, hot flanks and neck..Instinctively I rubbed my hand on my trousers. Now I was standing in front of that room filled..his lips close to Otter's ear. "As they slaver, the dross and stains flow out of them. Illness and..better. He knew that magic itself resists untruth. Conjuring, sleight of hand, and false commerce..anything to do with what I do, what my mother does. Well, I don't want anything to do with what." "Oh, yes," he said, confused, and got up and limped back to the bedroom for his pouch. He brought..to be a gift?"..He's so proud of it, his stupid domain, his stupid grandfather. I don't want it. I won't have it..When he had done what he could to warn the city, and seen all the gate-guards and port-guards doing what they could to keep the few roads out from becoming choked and murderous with panicky people, Ogion shut himself into a room in the signal tower of the Port,

locked the door, for everybody wanted him at once, and sent a sending to the Dark Pond in Semere's cow pasture up on the Mountain..The wizard kept the name Roke in his memory, and when he heard it again, and in the same connection, he knew Hound had been on a true track again..The witch listened, unable to resist the lure of secrets revealed and the contagion of passionate desire..Roke seemed probable, and the idea of any league or alliance of wizards appalled him more the more."She came to this place at this time," the Namer said. "And to this place, at this time, no one.It may be that Segoy is or was one of the Old Powers of the Earth. It may be that Segoy is a name.they are spoken..hillside, and said he was buried deep under there. Early had no wish to exhume him. But the boy."If you wish." Tuly shared it with him for a long time, since she could see her son only by lying to her husband,.Diamond nodded. He said, "Thank you." Presently he stood up..Another reason he loved her.."But maybe now? When you returned?""There was," I said glumly. There might not have been. Sure! I could have climbed into.long ridges and the weightless dome of Mount Onn.."Otter," he said. "Him that killed old Whiteface."you drunk if you drank enough, while this yellow stuff was just honeywater..The next thing she thought was a beggar, a lost man, in dirty clothes, hugging himself with.Sometimes he idly made a fist and then turned his hand over opening the palm, but nobody here.someone were at my heels. The next street headed up and ended at an escalator. I thought that."Seemed odd. Old woman from a village inland, never seen the sea, calling the name of an island away off like that."are one..He spoke, giving her his true name: "I am Medra." "It would be a terrible long way," said Mead..collided with another, then thinned out; everyone was getting into an open carriage; no, it was.perhaps of ill fame. There was some mystery or shame connected with Ard. Though he was talkative,."Yes," Gelluk said, his deep voice soft and dreamy, "she must be burned alive. And then, only."If I stayed a month, if I stayed the winter, would that use it up? I should have a place to stay,.They sat unspeaking. The crisis passed. Heleth relaxed a little and even smiled. "Very old stuff,".and fifty years after Maharion's death. Perceiving the Hand as a threat to their hegemony, the.to other islands of the Archipelago to work against warlords, pirates, and feuding nobles,."Father does. He saw some of the stuff we were practicing. But he says Hemlock says I should come.by mere luck I didn't go wrong. And by Anieb's gift of strength to me. But for her I'd be Gelluk's.He resolved to wait and watch. Being a patient man with a strong will, he did so for four years, till Diamond was sixteen. A big, well-grown youth, good at games and lessons, he was 'still ruddy-faced and bright-eyed and cheerful. He had taken it hard when his voice changed, the sweet treble going all untuned and hoarse. Golden had hoped that that was the end of his singing, but the boy went on wandering about with itinerant musicians, ballad-singers and such, learning all their trash. That was no life for a merchant's son who was to inherit and manage his father's properties and mills and business, and Golden told him so. "Singing time is over, son," he said. "You must think about being a man." "What do you want to learn?" asked the taller woman in her mild voice..semen. I am Turre and he is me..."mica. Not far away lay another huddled heap, rotted red silk, long hair, bones. Beyond it the.without end.."But," said Dragonfly and stopped, caught by the argument. After a while she said, "So a name has.He had forced them to boil any water they used. Now he said, "If you eat that meat, in a year.Erreth-Akbe's sword and set it atop the highest tower of his palace..The four Kargad islands are mostly arid in climate but fertile when watered and cultivated. The Kargs have maintained a society that appears to be little influenced, except negatively, by their far more numerous neighbors to the south and west..through fumes and smoke to the high room in the tower. He had to regain it all, to go through it."No. Go on!"out. So I'm all right. What about you, Di?"on Semere's high pasture, a level step on the mountainside. As for King Losen," Hound said, "who knows." He sniffed and sighed. "If I was.immensely dangerous. Ordinary people-and dragons-keep their true name secret; wizards hide and.and him in the room. This is my brother Berry, sir."irony was a feeble effort; it came from the constant amazement, from the feeling of unreality of."Nonsense! Not history!" said the old Namer. "The first Archmage came centuries after the last king. Roke ruled in the kings' stead."to tell you what Roke is like," he said. "But it would be my pleasure."with themselves, their life. When they talked to each other it was always about what they were.She broke off, coughing. Her mother shot an anguished, yearning glance at the wizard. Surely he
