Deep in a wood, so dark and tangled few men dared go, there was a small clearing. And in that. "You're right," said McKulian. "I don't really know. But I have a theory. Since these plants waste nothing, why not conserve them" bodies when they die? They sprouted from the ground; isn't it possible they could withdraw when things start to get tough again? They'd leave spores behind them as they retreated, distributing them all through the soil. That way, if the upper ones blew away or were sterilized by the ultraviolet, the ones just below them would still thrive when the right conditions returned. When they reached the permafrost, they'd decompose into this organic slush we've postulated, and. . . well, it does get a little involved, doesn't it?". He looks again at the group standing at the rail; now he sees that the woman has a child hi her arms. The child struggles, drops over the rail. Smith hears the woman shriek. In a moment she too is over the rail and falling into the sea..226.This statement is, I think, based on a cognitive error inculcated (probably) by American high school education. The error is that all proofs must be of the "hard" kind, i.e., cut-and-dried and susceptible of presentation in syllogistic form. An acquaintance with the modern philosophy of science would disabuse people of this notion; even a surprising amount of scientific proof is not of this kind. As philosophers since Plato have been pointing out, aesthetic and moral matters are usually not susceptible of such "hard" proof..this order will result in immediate penalties, including criminal trials of your leaders.
