"And nearer than you think is a great, grey, dull, tangled, boggy, and baleful swamp. The first piece is at the bottom of a luminous pool in the center. But it is so grey there that the grey man would blend completely in with the scenery and never get out again. Up this one is a mountain so high that the North Wind lives in a cave there. The second piece of the mirror is on the highest peak of that mountain. It is so windy there, and the grey man is so thin, he would be blown away before he was halfway to the top. Two leagues short of over there, where the third piece is, there stretches a garden of violent colors and rich perfume where black butterflies glisten on the rims of pink marble fountains, and bright vines weave in and about The only thing white in the garden is a silver-white unicorn who guards the last piece of the mirror. Perhaps the grey man could get that piece himself, but he will not want to, I know, for lots of bright colors give him a headache.".. seventeen hundred; a double, a round four thousand. Jason said he could arrange an introduction at that. explain! is one of the ghastly facts of American education. Some defenses against this experience take the form of asserting there's no such thing as great art; some, that whatever moves one intensely is great art. Both are ways of asserting the primacy and authenticity of one's own experience, and that's fine. But whatever you (or I) like intensely isn't, just because of that, great anything, and the literary canon, although incomplete and biased, is not merely an insider's snobbish conspiracy to make outsiders feel rotten. "In just a moment," said the thin grey man, "you will see a man living through the happiest moment of his life. But first I must make sure my nearest and dearest friend can see too." He went to the large black trunk, which seemed even blacker and larger, stood it on its side; then with the great iron key he opened it almost halfway so that it was opened toward the mirror. But from where Amos and Jack were, they could not see into it at all. "If you say so," said Amos. He went to the trunk, walked all around it three times, then gingerly lifted the lid. He didn't see anything, so he lifted it further. When he still didn't see anything, he opened it all the way. "Why, there's nothing in ..." he began. But then something caught his eye at the very bottom of the trunk, and he reached in and picked it up.. "Right," Lang went on. "It'll be literal confinement for her, right here in the Poddy. Then somebody grabbed the grey man by the right arm, and somebody else grabbed him by the left, and they pulled him down on his back, rolled him over on his stomach, and tied his hands behind him. One picked him up by the shoulders and the other by the feet, and they only paused long enough to get the mirror from the clearing, which the unicorn let them have gladly, for there was no doubt that they could have answered Lea's questions..When the blowout started, Lang had snapped on her helmet quickly. Then she had struggled against the blizzard and the undulating dome bottom, heading for the roofless framework where the other members of the expedition were sleeping. The blowout was over in ten seconds, and she then had the problem of coping with, the collapsing roof, which promptly buried her in folds of clear plastic. Just one glorified feedback transceiver: pick up the empathic load from Jain, pipe it into the audience, they react and add their own load, and I feed it all back to the star. And then around again as I use the sixty stim tracks, each with separate controls to balance and augment and intensify. It can get pretty hairy, which is why not just anyone can do the job. It helps that I seem to have a natural resistance to the sideband stopover radiation from the empathic transmissions. "Ever think of teaching?" said the school voc counselor. "No," I said. "I want the action." I'm not used to this much open space; it scares me a little, though I'm not going to admit that to Jain. We're above timberline, and the mountainside is too stark for my taste.
