Sure enough they found themselves on the edge of a round, silvery pool. Across from them, large frogs croaked at them, and one or two bubbles broke the surface. Together Amos and Jack looked into the water. "You mean identify the solvent these things use? Probably, if we can get some sort of work space. It is also possible, however, though not usual, for a woman to bring two different egg cells to fruition at the same time. If both are fertilized, two children will be bom who are each possessed of genetic equipment different from the other. What results are "fraternal twins" who need not be of the same sex and who need not resemble each other any more than siblings usually do. "This is what would kill us, Crawford. What's your first name? Matt. Matt, this baby is a flyer for the first forty thousand meters. It doesn't have the juice to orbit on the jets alone. The wings are folded up now. You probably didn't see them on the way in, but you saw the models. They're very light, supercritical, and designed for this atmosphere. Lou said it was like flying a bathtub, but it flew. And it's a skQI, almost an art. Lou practiced for three years on the best simulators we could build and still had to rely on things you can't learn in a simulator. And he barely got us down in one piece. We didn't noise it around, but it was a damn close thing. Lou was young; so was Cantrell. They were both fresh from flying. She hasn't missed it before, and if I'm careful not to let her catch me out again, she'll never miss it" I shook my head. "You're breaking an agreement" "I'm not taking over, though. You know that's just a paranoid fantasy. I use only enough time for practice and no more." I sighed. "You seem to have all the best of it" She snorted. "I wonder. Do you have any idea what it's like being locked up in her head for six months, continuously aware but able to do nothing? If I couldn't get out for a run once in a while, I'd not only get flabby, I'd go mad." She bounced out of the chair and came over to lace her fingers together behind my neck. "What about you?
