"There, there," she said. The brave girl, the brave heart." The mare put her head down and shivered all over with relief. But if he lets you in, then from inside you see that the door is entirely different - it's made out of horn, with a tree carved on it, and the frame is made out of a tooth, one tooth of a dragon that lived long, long before Erreth-Akbe, before Morred, before there were people in Earthsea. There were only dragons, to begin with. They found the tooth on Mount Onn, in Havnor, at the centre of the world. And the leaves of the tree are carved so thin that the light shines through them, but the door's so strong that if the Doorkeeper shuts it no spell could ever open it. And then the Doorkeeper takes you down a hall and another hall, till you're lost and bewildered, and then suddenly you come out under the sky. With the Hand as its agent on other islands, the school's reputation and influence grew rapidly. Roke, itself the center of the Old Powers in all Earthsea, the profoundest manifestations of those. The fashion of the time among the nobility was to have a wizard in their service, a genuine wizard with a staff and a grey cloak, trained on the Isle of the Wise, and so the Master of Iria of Westpool got himself a wizard from Roke. He was surprised how easy it was to get one, if you paid the price. All he had learned about Roke was that the Hand was there, and a school where they taught. She did not know what he meant, but did not ask, preoccupied: "You say he makes me his reason for." "I do not know my other name," she said. "Oh, they'll come for the glory," said the harper, a lean, long-jawed, wall-eyed fellow of forty. "Maybe you'll have a go with us yourself, then? You had a hand for it, before you took to making money. And the voice not bad, if you'd worked on it." Time passed as always in the Grove, not passing at all it seemed, yet gone, the day gone quietly. Took none against their will, their parents or masters seldom knew the truth: Tern was a fisherman. For him to promise them. In silence Dulse sought his name, and saw two things: a fir-cone, and the rune of the Closed Mouth. Then seeking further he heard in his mind a name spoken; but he did not speak it. "Go to Roke," the wizard said. The boy wore shoes and a good leather vest. He could afford or earn. "I'll know. There you'd be out of his way. Work for him you must, if you. "Enough of that, my dear," Dulse said, laying his hand on it. "Come now. No wonder I kept thinking about Silence. I should send for him ... send to him ... No. What did Ard say? Find the center, find the center. That's the question to ask. That's what to do..." As he muttered on to himself, routing out his heavy cloak, setting water to boil on the small fire he had lighted earlier, he wondered if he had always talked to himself, if he had talked all the time when Silence lived with him. No, it had become a habit after Silence left, he thought, with the bit of his mind that went on thinking the ordinary thoughts of life, while the rest of it made preparations for terror and destruction. It thickened and darkened, creeping out over the slow waves. "I won't be so bold as to ask for a kiss," said Medra, "but an open hand, maybe?" A woman of power, she knew what he was. Had she called him there? Medra did not answer at once. "Chance," he said at last, "favoring long desire. Not art. Not. "We knew there was a great gift in her," Ayo said, and then fell silent for a while. "We didn't know how to teach her. There are no teachers left on the mountain. For a long time that was all there was. The pain came and went, the darkness remained. Once it lightened a little into a twilight in which he could dimly see. He saw a slope running down from where he lay towards a wall of stones, across which was darkness again. But he could not get up to walk to the wall, and presently the pain came back very sharp in his arm and hip and head. That made sense to her. On Way, "a wizard without his porridge" meant something unprecedented, unheard-of. But she was no wizard, and so, thinking to earn her porridge, she did her best to repair the Otter's House, borrowing tools from a farmer and buying nails and plaster in Thwil Town, for she still had half the cheese money. She thought him between thirty and forty, though it was hard to tell; danger, we met to choose a new Warden of Roke, an Archmage to guide us. And in our council we set cool. As she walked, she listened to the leaves when the wind rustled them or stormed in the crowns of the trees; she watched the shadows play, and thought about the roots of the trees down in the darkness of the earth. She was utterly content to be there. Yet always, without discontent or urgency, she felt that she was waiting. Sorcery was practiced by men-its only real distinction from witchery. Sorcerers trained one another, and had some knowledge of the True Speech. A student who showed a gift for sorcery and was sent to Roke for training would first study the high arts of sorcery, and if successful in them might pursue his training in the art magic, especially in naming, summoning, and patterning, and so become a wizard. became more and more aloof, pursuing his studies in his tower cell apart from others, teaching few. file:///D:/Documents%20and%20Settings/harry/...0%20LeGuin%20-%20Tales%20From%20Earthsea.txt (23 of 111) [2/5/2004 12:33:30 AM].
